BEET SUGAR ENTERPRISE AT BLACK RIVER FALLS.

Richard Guenther Succeeds Mr. Heg On the Board of Control—Big Contracts Let for Saw Logs—Status of the Chippewa Falls Strikes—Minor Matters.

Black River Falls, Wis., April 16—The option on 25,000 acres of county lands granted by Jackson county to the Northwestern Beet Sugar company of La Crosse, which was to build a beet sugar factory at Merrillan, expired today.

At a meeting an agreement was entered into by the company and the county by which the company is to be allowed to sell such lands from this date, and in case it is able to place its bonds within six months then the original option, dated Feb. 5, 1897, is to be renewed on certain conditions, among which are that $10,000 is to be deposited by the company for the payment of the 1897 crop of beets. All expenses of the county committee meetings are also to be paid by the company.

BIG CONTRACTS FOR LOGS

Large Deals for the Summer Completed At Ashland

Ashland, Wis., April 16—Sol. Wilkinson has closed two good sized contracts for summer logging. He will cut 10,000,000 feet for the John O'Brien Lumber company of Chicago, and 10,000,000 feet for the South Shore Lumber company, of Washburn.

The logs will be cut during the summer and sawed as fast as they are hauled to Chequamegon bay. The logs of the O'Brien Lumber company will be cut from sections in town 49, and will be hauled over the new Washburn & Iron River road. The logs Mr. Wilkinson will cut on the other contract will be hauled over the Ashland & Siskiwitt road.

Each year more summer logging is being done in this region. The Ashland & Siskiwitt Logging railroad will be completed in to town 49, 7 west in a short time, and will begin hauling the 5,000,000 feet of logs for the Ashland Lumber company that are on skids. The Ashland Lumber company will log 15,000,000 feet more of logs from these same sections during the summer.

STILL REMAIN FIRM.

Both Parties In the Chippewa Falls Strike Yet Hold Out.

Chippewa, Falls, Wis., April 16—The 350 employees of the big mill, who have been holding out against the order to run the mill eleven hours, took their station on the railroad track near the company's mill this morning and told the men, some fifty or more, that they were not expected to continue work for the company until the differences between the men and owners were adjusted. Force was not used and not necessary, as the planing mill men did not try to force their way through the ranks, but returned to their homes.

The company will try to induce the men to resume work. They will be paid off and can do as they please about returning to work. If they choose the latter course they will be protected. It looks much as though the company had no intention of yielding. If the mill does not resume operations it will be a serious blow to the merchants of Chippewa Falls.

The batting order of the game was as follows: Beloit: Beaumont, left field; McMaster, catcher; E. Brown, first base; Adkins, right field; Ferris, short stop; R. ARRANGING FOR THE CAMPAIGN

REPUBLICAN EXECUTIVE COMMITTEE HOLDS CONFERENCE.

New Chairman To Be Selected In Place of E. D. Coe—Next Convention Will Be Held Some Time In August—Members Are Hopeful of Future Party Success.

Milwaukee, April 16—The executive committee of the republican state central committee held a short session at the Hotel Pfister yesterday and passed a resolution calling a meeting of the full committee for June 15.

While this was all the formal business before the meeting there was considerable discussion among those present on the situation in the state and the results of the spring elections. The members from the interior expressed the opinion that the only serious storm center developed was here in Milwaukee and felt that so far as the state was concerned republicans would be found in line.

A New Chairman

The matter of a new state chairman was discussed informally on the notice from Chairman Coe that he would like to transfer the duties of the office to some one else. Mr. Coe said he was willing to hold on if the committee thought it was best not to try and select a temporary chairman for the short time that would elapse between now and the meeting of the state convention, but at the same time he preferred to get out.

When it came to the question of the time for calling a meeting of the full committee it was decided that the middle of June was early enough, and the date was fixed accordingly for June 15. At this meeting the committee will issue the call for the republican state convention.

An August Convention

From the expression of individual opinion among the members present today it seems probable that the convention will be called for late in August. Some of the members even wanted it postponed until September, on the ground that six weeks of campaigning was enough, but the majority inclined to the belief that it would be better to have a longer campaign.

INDICTED AT ROCKFORD

W. C. Crolius Charged With Keeping a Bucket Shop

The Rockford grand jury is after the speculators in grain and stocks who have recently been doing business there. On Thursday last it returned an indictment containing thirty-seven counts against W. C. Crolius for keeping a bucket-shop. It is said that several speculators who were his patrons suspected some weeks ago that they were being cheated. They lodged complaints, it is said, with agents of the civic federation, who carried them to the grand jury and assisted in carrying on the investigation.

Mr. Crolius is the manager of an office in Janesville similar to the one in Rockford against which complaint if made. He gave a bond of $500 to appear for trial. He is represented by Attorneys Arthur Fisher and Charles Ferguson, and it is said will fight the prosecution to a finish, claiming that the business is as legitimate at that done on the Chicago and Milwaukee boards of trade.

BILLY MASON MAY SPEAK

Illinois Senator Has Been Invited to Address the Woodmen.

Members of the local lodge of Woodmen who attend the big picnic at Rockford on June 2 may have the pleasure of hearing Senator William E. Mason, of Chicago deliver a speech. The coming of Billy Mason to this section at this time would set all the reconcentradoes yelling with delight, for Billy could tell us all about the trouble.

PEACE ONLY THROUGH THE BRAZEN GATES OF CARNAGE.

Wellington and Platt Defend the President's Course—Army to Be Within Striking Distance of Cuba by Tuesday—American Consulates In Spain Attacked.

Washington, April 16—Immediately upon the convening of the senate this morning the debate on the Cuban resolutions was resumed. Mr. Cannon, of Utah, was the first speaker, and said: "I am for peace, and the only way to secure it is through the brazen gates of war."

Mr. Allen, of Nebraska, followed. He protested against foreign powers interfering in our affairs.

Mr. Burrows, of Michigan, the next speaker, defended the president's course and vigorously opposed the recognition of the Cuban republic.

Mr. Platt, of Connecticut, also defended the president.

SHORT NOTICE TO SPAIN.

President Intends to Give Her But a Few Hours to Quit Cuba.

Washington, April 16.—The Washington Post's summary of the situation includes the following statement:

"Immediately the president is empowered to use the army and navy he will issue an ultimatum to Spain, giving her twenty-four hours—possibly forty-eight—within which to answer whether she will peaceably withdraw her troops and flag from Cuba.

"Her refusal to evacuate the island—which is, of course, expected—will be the signal for action on the part of this government, and that action will be the vigorous use of both our naval and land forces. The Post makes this statement upon the highest possible authority, the course of action indicated having been decided upon at Friday's cabinet meeting.

"Should the resolution reach the president accompanied by the amendment recognizing the republic of Cuba the president will sign them, but in a brief message to congress he will hold that the constitutional prerogative vested in the president to recognize other governments cannot be taken away and that the amendment is therefore void and inoperative."

GREAT DANGER LIES IN DELAY

NAVAL OFFICERS FEAR THE STRENGTHENING OF SPAIN.

Advantage Is Now With the United States, But Further Parleying May Change the Aspect of Affairs—Evangelist Moody Invokes God's Curse On Spain.

Washington, April 16—[Special]—The necessity for immediate action by congress on the Cuban resolutions is becoming painfully apparent to naval officers, who say delay will give Spain an opportunity to get on as good war footing as the United States is now. Members of congress recognize this fact, and it is said no more delays will be permitted. The opinion is growing that the Foraker resolutions recognizing independence and advocating armed intervention will be passed. It is known that these resolutions have gained several votes during the past few hours.

MOODY DOES NOT OPPOSE WAR

Says the Curse of God Rests Upon the Spanish Nation.

Cincinnati, Ohio, April 16—"The curse of God is upon Spain."

"Spain is a moral pestilence," he continued, "a disease, a rottenness in the world. Her corruption, rapine,

DWIGHT L. MOODY.

murder, smells to heaven. Spain won't stop it; we should not hesitate to stop it. I am surprised that the Pope would allow it to continue. The religion of the world should stop it. The war that has behind it the termination of that tryanny and distressing destitution would in the eyes of God be a virtue. I am not afraid of war. It looks as though we would have it. I must confess that I have not prayed for war. It looks as though we would have it. I must confess that I have not prayed much in deprecation of war."

HOW CHICAGO WILL HEAR IT.

Within ten minutes after the news reaches Chicago the telephone company will have transmitted it to a a hundred or more manufacturing concerns, railroad shops, and steamboat companies, and all have agreed to in turn spread the news by blasts of their whistles. In the several surrounding villages whistles and church and school bells will announce the tidings, and according to the present arrangements no town or village within fifty miles of Chicago will be kept in ignorance for more than a few minutes after the news has been received here.

EFFECTIVE WORK IN THE CHURCHES

HOW PASTORS MAY BE ASSISTED BY THEIR PARISHONERS.

Cumulative Approval and Encouragement Accomplishes Much Good—Services Appointed For Tomorrow Promise to Interest All Who May Be In Attendance.

There has been a good deal of talk during the past week about changes, accomplished and prospective, in the Janesville pulpits. Rev. Mr. Thompson has already taken his departure for his new field of labor, and at least one other of our local clergymen is contemplating removal from the city. These changes are not at all relished by our people, yet they are more or less to blame for them.

The way to keep a good minister and to endow him with enthusiasm in his work is to lend him a hearty support in whatever he undertakes for the good of the church. A clergyman who is conscious of strong backing and generous encouragement will undertake more and accomplish far greater good than one who receives only a half hearted support, or is left to bear all the burdens of his work upon his own shoulders. The assistance that any individual member of a church may be able to render his or her pastor may be but trivial in itself, but it should be borne in mind that "many littles make a muckle." It is the cumulative approval and assistance of the members of the church that makes the work of the pastor both light and effective. This fact is too often lost sight of.

FRENCH GOWN OF BLUE AND WHITE FOULARD FROM HARPER'S BAZAR

A gown of dainty simplicity is of corn-flower blue and white foulard. The skirt is a six-gored model, which is adapted especially to foulard silk, and is made over a silk foundation skirt that is cut exactly like the outside.

The skirt embodies a pretty idea for the ure of flounces. Taree ruffles of graduated width trim it from the front seam, sloping upward, and passing entirely across the back. The ruffles are stitched on with a piping. The corsage combines several new features of the season. The surplus drapery, which crosses from both sides, has the ends bloused slightly over the opening of the bodice, made to show a contrasting color in the vest beneath. The left end is attached by a fan-shaped bow, which also finishes the band encircling the waist. The low pointed neck is framed by a "ruffle revers" that follows the direction of the fichu in front and diminishes each side of the pointed plastron behind. The back at the waist-line is drawn into tiny pleats. Tucked blue silk poplin ette forms the plastron, the vest, and the high collar. The closely fitting sleeves, made with the tiniest puff at the top, are trimmed at the wrist with a ruffle turned back from the hand.

The design of this little gown is an excellent one for batiste, organdie, or challi, as well as foulard or taffeta. The skirt measures three and a half yards at the foot, and the proper cut of the gown can be obtained from the cut paper patterns issued by Harper's Bazaar, where it appears. The back gores are shirred in several rows into a small space. It may be lined if preferred, with silk, satin, lawn, or percaline, although it is more customary to make such a gown over a drop skirt. The latter, if made plain, is finished with a facing of silk about five inches wide, interlined with a light-weight canvas. The outside material has a facing or hem about the same width, interlined with a thin crenoline. This is sewn by hand with invisible stitches.

Quantity of material: Foulard silk, 16 yards; lining silk, 22 inches wide, 14 yards; tucked silk for chemisette, ¾ yard.

LITTLE RELIEF WAS NEEDED

Associated Charities Had Few Calls For Assistance Last Winter.

President W. G. Palmer, of the Associated Charities, reports that the past winter has not seen the suffering and want among the poor of the city that was found during the winter of 1896.

During the past winter not more than $200 in cash was distributed while of clothing and supplies there was always enough on hand to keep the needy supplied.

Members of the local association say that work was more plentiful this winter, which accounts for less suffering and want.

HELPS THE FACTORY ALONG

Plan By Which the Merchants Stimulate a Manufacturing Enterprise

The merchants of the city have extended a helping hand which now insures the starting up of the furniture factory at Spring Brook, which will be known in the future as the Janesville Furniture Manufacturing company. A canvass of the business portion of the city finds the majority of the local business houses in favor of the plan, which is as follows: For each and every man employed at the factory each business firm agrees to pay two cents a week for one year from the time the man starts to work.

If a dozen men are employed twenty-four cents is given by each firm, which is equivalent to $12.48 for the year. In case seventy-five or a hundred firms agree to this plan it will mean much to the company.

"Our object in doing this is to get money to help tide us over the first year," said a local director this morning, "for it is a certainty that for the first twelve months we are to run at a loss of several hundred dollars, which has always been the case in years past with furniture factories."

WE KEEP THE QUALITY UP

They All Agree

That the display of piece goods, dress goods, suits, skirts, shirt waists and undermuslins shown by The Big Store is second to none in town, and that a great deal of it takes first place in the admiration of the ladies who know.

The New Muslins

Dimities, Organdies, Batiste, Percales, Ginghams, &c., are creating no end of attention. It's an assortment of the very newest and choicest things in wash dress goods. POWERS MAY THREATEN US

Rumors That Europe Will Make a Naval Display.

ROME NEWSPAPER SAYS SO.

It Is Asserted That Information in Regard to the Means of Averting War Comes From Well-Informed Quarters —Not Believed at London.

Rome, April 16.—The Popolo Romano says it understands the powers of Europe will intervene between the United States and Spain in favor of the latter country, and it adds, according to information gathered in well-informed quarters, the intervention will take the form of a naval demonstration in which all the powers will participate.

London, April 15.—The British foreign office does not believe the powers will make a naval demonstration.

WILL IGNORE EUROPE.

Administration Gives Little Heed to Attitude of the Powers.

Washington, April 16.—As the day of actual hostilities between this country and Spain approaches the question of the attitude of the European powers becomes more pressing and important. Since the diplomatic representatives at Washington of six foreign nations have made a simultaneous appeal to the United States and Spain for peace, the impression has become fixed in certain quarters that a joint note of protest will be filed by the powers if the United States shall declare war upon Spain.

The administration gives little heed to this warning, however, and more than one member of the cabinet has stated that such a protest, if made, would be ignored.

Among those usually well informed upon diplomatic matters it is believed that the reports as to the intention of the powers to protest grows altogether out of the knowledge of their opposition to the proposed recognition of Cuban independence.

SEE WAR AT HAND.

Spaniards Now Regard Hostilities as Inevitable.

Madrid, April 14, via. Bayonne, France, April 16.—The action taken by the Spanish cabinet Friday has confirmed the general belief that war is now inevitable. The warlike tone of the official note issued by the Spanish government finds general approval here and creates much excitement.

Contrary to the general opinion that the queen regent has been negotiating for peace at any price, her attitude had much to do with the firm action of the cabinet. It is learned on unquestionable authority that the queen regent recently made the following statement: "I prefer even the horrors of war rather than tarnish on the prestige of the army or an impairment of the rights of the crown."

Another factor, undoubtedly, is Don Carlos' manifesto.

Spain is figuring on yellow fever being an important factor of the Cuban situation. It says: "We have 200,000 troops on the island, perfectly acclimated, and any Americans who are landed there will die like flies."

Activity at the Vatican.

London, April 16.—The Rome correspondent of the Daily News says: "Cardinal Rampolla, papal secretary of state, speaking to the French ambassador about the chances of war between Spain and the United States, said: 'We still hope, and there is still a thread of hope.' Although, according to the news received from the vatican, it is considered certain that President McKinley will send his ultimatum to Spain, they still hope and work there to find some means to avoid extremities, either by inducing Spain to make fresh concessions—for which purpose the pope has again personally addressed the queen regent and Senor Sagasta—or by finding a basis of arbitration acceptable to both sides.

Wary of Attacking America.

Paris, April 16.—The Temps warns the powers against hasty action, and says: "Europe must not forget she has a great interest in America. It would be simply disastrous to provoke war between the two continents, and, above all, it is necessary for the powers to come to an understanding and act in concert. Any nation which alone assumed the responsibility of supporting Spain and making an enemy of the United States would do the greatest injury to its most essential interests."

Naval Authorities Uneasy.

Washington, April 16.—In naval circles a suspicion prevails that the Spanish warships have not gone to the Cape Verde islands, but are maneuvering to get within striking distance of some American city should hostilities break out, and thus divert attention of the combined American fleets from Cuba.

Support Pledged to Spain.

Madrid, April 16.—The Cuban colonial cabinet has addressed a manifesto to the queen regent offering unconditional assistance in defense of Spain and in behalf of the regeneration of Cuba.

Privateering to Be Barred.

Vienna, April 16.—The Wiener Allgemeine Zeitung asserts that the powers have been notified that in the event of war both Spain and the United States will refrain from privateering.

Has Given Up Hope.

London, April 16.—The Austrian ambassador admits he has given up hope of Europe preventing war.

Ships Back in Port.

Fort Monroe, Va., April 16.—After two days and two nights practice at sea in rough weather the flying squadron is back at anchor in Hampton Roads. It has performed the first concerted maneuvering since it was organized—performed it to the complete satisfaction of its commander-in-chief, Commodore Schley.

Spaniards Destroy a Town.

Manila, April 16.—Cebu has been bombarded by the Spaniards and the town destroyed. The rebels evacuated it, taking £100,000 with them. The natives watch with interest the relations between Spain and the United States, their sympathies being entirely with the Americans.

More Boats Purchased.

Washington, April 16.—The steamers Venezuela and Yorktown have been purchased by the government for naval purposes, and the liners, St. Louis, St. Paul and New York have been chartered and will be armed. There is a possibility of getting the O'Higgins from Chile and another cruiser from Argentina.

Weyler Asserts Innocence.

Madrid, April 16.—General Weyler again denies that he wrote the letter to Senor Guzman, produced by Honore Laine, and referred to by General Lee in his testimony before the congressional committee, showing that he had caused Havana harbor to be mined and advocated the blowing up of the Maine.

To Recruit the Illinois Militia.

Springfield, Ill., April 16.—The adjutant-general has issued an order for all companies and batteries of the Illinois national guard to be recruited to their full complement of 100 men by the end of this week. The ranks are being rapidly filled throughout the state.

For Massachusetts Militia.

Boston, Mass., April 16.—The legislature, in twenty-five minutes after receipt of a message from Governor Wolcott, passed an emergency appropriation of $500,000 to increase the efficiency of the militia.

A little boy asked for a bottle of 'get up in the morning as fast as you can." The druggist recognized a household name for "DeWitt's Little Early Risers," and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles. People's Drug Co.

The Pimples That Bloom in The Spring

At no other season are Pimples and Humors so abundant or so annoying as in the Spring.

An unseasonably warm day, before change of winter clothing, heats the blood, and these Pimples and Humors itch and burn, and their annoyance, the suffering they cause, is known only to those afflicted.

At no time is a blood purifying medicine more effective than just before and during this season.

If your blood is not right (and whose is?) you are liable to be one of these sufferers this Spring.

A course of Hood's Sarsaparilla begun now and faithfully pursued, will save you suffering and give you rugged health, so that you can thoroughly enjoy all the pleasures of the coming summer.

Pimples on the Face.

"I have been troubled for three years with pimples on my face and body. I tried several remedies with only temporary relief. I am now taking Hood's Sarsaparilla and it is doing me a wonderful amount of good. My general health is greatly improved, and I feel very thankful for what Hood's Sarsaparilla has already done for me." MISS JANE JABROSKY, Burnham, Illinois.

A Clear Complexion.

"I have had a bad complexion owing to impure blood. I have been taking Hood's Sarsaparilla and my skin is now clear. Hood's Sarsaparilla has done me much good by purifying my blood." ANNIE D. MCCOY, Watsonton, Pennsylvania.

Boils, Blotches, Sores, Pimples.

"I have been afflicted for many years with impure blood, which manifested itself in erysipelas, boils, blotches, sores and pimples. I have used many medicines and found Hood's Sarsaparilla to be the best. I recommend Hood's Sarsaparilla to all who are affected with impure blood." ISAAC P. MARTIN, Walnut Hill, Ill.

Annoyed by Eruptions.

"I had eruptions caused by impure blood and at times they were very annoying. I was treated by physicians without benefit, and last winter I took a bottle of Hood's Sarsaparilla and found it helped me. I kept on until I had taken five bottles, and I am no longer annoyed with eruptions." W. R. HUDSON, Natrona, Pa.

THIS DAY IN HISTORY

1639—Aphara (or Aphra) Behn, noted English dramatist and novelist, died in London; born about 1640.

1862—France declared war against Mexico. A French army was already in Mexico when war was declared. It had landed with Spanish and English troops to demand reparation of losses and injuries inflicted upon foreign subjects during the revolutions. Spain and England settled by negotiations and withdrew their armies. Hostilities began at once, and in July the French occupied the City of Mexico. Maximilian of Austria was crowned emperor. Being engrossed with civil war, the United States could not strongly protest against this violation of the Monroe doctrine, but Napoleon III was advised that the proceedings might lead to a rupture.

1890—Richard H. Mather, distinguished professor of Greek at Amherst college, died; born 1835.

1892—Day of destructive storms in the middle Atlantic coast states, especially Virginia, and also in England.

1894—General Oliver Lathrop Shepherd, U. S. A., retired, veteran of the civil war, died in New York city; born 1813.

THE APRILS OF HISTORY.

As we seem to be on the eve of great events in April 1898, it is worth while to take note of the momentus events that have happened in this month since the country undertook to expound to the world the practical doctrine of liberty. Here is a part of the story of the Aprils of American history.

April 19, 1775—Battle of Lexington.

April 24, 1846—First engagement of Mexican war.

April 12, 1861—Sumter fired on.

April 13, 1861—Sumter surrendered

April 14, 1861—Lincoln's first call for troops.

April 9, 1865—Lee surrendered.

April 14, 1865—Lincoln assassinated.

It will be noted that Sumter surrendered on April 13, the same day that the house passed the Cuban resolution.

THE GERMAN OPINION.

P. V. Deuster, former United States consul to Crefelt, Germany, has returned to Milwaukee. He says the sentimedt in Germany seems to be that the "Yankees" lack diplomacy, and said the Americans had not pursued the right course in dealing with the Cuban situation. In an interview Mr. Deuster says he thinks the powers are well satisfied with the president's message. Germany, in his opinion, will remain neutral. A good deal of the American war sentiment impressed him as being artificial He also said he considered it likely that Austria-Hungary (Spain's queen regent being an Austrian princess) might wish to assist Spain, and a general disturbance all through Europe might naturally follow.

The Recorder is as silly in its abuse of Congressman Cooper as is Billy Mason in his abuse of the president. To compare Congressman Cooper's Cuban policy with that of Mason is equally silly. Mason attacks the president and the administration malignantly, and begins a blatant tirade whenever opportunity offers. Congressman Cooper differs with the president in relation to the recognition of Cuba only, but voted for intervention, as the president recommended. His voice has not been raised in coarse abuse of the president. He is standing by the flag and the government that Mason reviles.

At the annual meeting of the State Board of Control, Hon. Richard Guenther was elected president of the board to succeed J. E. Heg the new superintendent of the Green Bay reformatory. Mr. Guenther is one of the veteran members of the board, and his selection as president shows that his valuable services are appreciated by the members of the board as well as the people of the state at large.

The announcement is made that Spain will not pit her warships against ours, but will use them to wage a guerrilla warfare on American commerce and coast towns, retreating before the United States forces can retaliate. This will be genuine Spanish warfare—piracy and murder—but Uncle Sam will be equal to the emergency.

The Spaniards hail "Butcher" Weyler as the only man "who can save the national honor." Weyler is Spanish honor personified, as his popular given name would indicate.

Governor Scofield made a wise choice when he appointed N. B. Treat of Monroe, a member of the state board of control to succeed J. E. Heg. Mr. Treats stands exceptionally high as a citizen and business man, and will make a valuable member of the board

President McKinley's spirited denial of the statement that he would veto any measure looking toward war silenced his critics with a snap. He says he will sign any bill passed, in less than an hour. President McKinley's course has been wise and patriotic and will be so to the end.

Governor Tanner, of Illinois, is willing to resign the position of governor if the rank of Major General is given him and he is placed in command of the Illinois troops. There is no immediate prospect that he will be called upon to make the sacrifice, however.

A New York man traded his wife for a second-hand shot gun. Patriotism should hardly be allowed to go this far as a general thing, however. Discretion is still the better-half of valor.

There is one man in the United States who has not yet said a good word for General Lee. His name is William Jennings Bryan, and the reason of his silence is apparent.

At one time the Swiss national council had about decided to settle the American-Spanish trouble. Later, however the council decided to "cheese it."

Oregon republicans, in state convention assembled, cheered President McKinley's name wildly and sent him a telegram endorsing his course.

General Sherman once said "War is hell!" People who travel in the straight and narrow path, however, need have no fear of either.

Some people are perfectly contented to work off their warlike enthusiasm by attacking Havana daily—perfecto size preferred.

None of the Janesville jingoes have let their patriotism carry them to the extremity of going to Milwaukee and enlisting.

The other much-wanted man has been working of late near Johnstown, and is accused of stealing a silver watch.

BELOIT WINS THE CONTEST

Debate With Knox College Results in Favor of Line City Boys

Galesburg, Ill., April 16—The second annual debate between representatives of Knox and Beloit colleges was held here in Alumni hall last night. It was decided by the judges in favor of Beloit. The question was: "Resolved, That legal restrictions should be placed on the private accumulation of wealth in the United States." Knox supported the affirmative. Its speakers were Albert Britt, T. H. Blodgett and F. O. McFarland. Beloit held the negative. Its speakers were R. L. V. Lyman, R. E. Smith, and D. M. Roberts. Edwin Burnett Smith and Dr. George E. Vincent, of Chicago, and C. H. Williamson, of Quincy, were the judges.

Beloit contended that there is no inherent evil in wealth; that the right of private ownership of property is a fundamental principle of our constitution, and should be protected; that it is a necessity for industrial development that wealth should be centralized. It was urged that the question did not concern the restricting of the manner of accumulating wealth, but the limiting of the amount to be accumulated. The real evil, it was maintained, lies in avoidance of taxes by rich men.

WEEKLY REVIEW OF TRADE.

War Scare Begins to Have Effect on Business.

WEST SUFFERS THE LEAST.

The Volume of Payments Through Clearing Houses Is Still Much Larger Than Last Year—Legitimate Business Enormous and Failures Few.

New York, April 16.—Bradstreet's says:

"The effect of the prevailing uncertainty in foreign affairs is reflected in a further perceptible quieting down of general trade, so far as future engagements are concerned, in nearly all parts of the country. While there is a little more activity to be noted in the demand for seasonable staples at the west and northwest, where better weather has helped retail and wholesale trade alike, rather more quiet is reported at the east and at the south Atlantic and gulf ports. The least notable effects yet exhibited are found in the central west, where distributive demand and movement is reported of a seasonable character, the only changes noted, in fact, being the strengthening of money rates and the discouragement of new enterprises, such as railroad building. In the iron trade business continues of large volume. Wool continues dull, at nominal prices, at the east, and the activity in dry goods is confined chiefly to goods needed at once. Cotton goods prices are steady, except for print cloths. Low price woolens continue in most active demand.

"Exports of cereals are larger. The shipments of wheat (flour included) this week from the United States and Canada aggregate 4,044,000 bushels, against 3,778,000 bushels last week. Corn exports are over 1,000,000 bushels larger than last week, aggregating 4,627,000 bushels."

R. G. Dun & Co.'s Weekly Review of Trade says:

"The meaning of congress regarding Spain is not in doubt, but the form of declaration at this hour is in question. The president's message has been accepted as a strong statement of the situation, and the question in congress is whether it will without change adopt his proposal. Preparations for war continue as if it were inevitable. There is some hindrance in business, and yet the volume of payments through clearing houses is still 12.9 per cent larger than last year, and outside New York about 2.2 per cent larger than in 1892, though speculative stagnation here makes the aggregate lower. The industries are doing well because they have enormous orders taken in February and March or earlier, which insure operations for periods varying from a fortnight to several months.

"The volume of legitimate business is enormous, and meanwhile failures are remarkably small. For the week they have been 254 in the United States, against 207 last year, and eighteen in Canada, against thirty last year."

BASEBALL SEASON OPENS.

Enthusiasm Evinced at the First Games—Standing of the Clubs.

Another baseball season was started yesterday. Six of the twelve clubs of the National league were able to decide the contests scheduled. In all of the cities the greatest enthusiasm was shown. It rained in two of the eastern cities where games were to have been played. In one of the others wet grounds made a game impossible. Western clubs got along nicely. Chicago beat St. Louis, Cincinnati proved too strong for Cleveland and Louisville, to the surprise of all, gave Pittsburg a sound drubbing as a fitting start of the season. Standing of the clubs:

	W.	L.	P.C.
Chicago	1	0	1,000
Cincinnati	1	0	1,000
Louisville	1	0	1,000
Boston	0	0	000
New York	0	0	000
Baltimore	0	0	000
Washington	0	0	000
Brooklyn	0	0	000
Philadelphia	0	0	000
Pittsburg	0	1	000
St. Louis	0	1	000
Cleveland	0	1	000

Score of games: At St. Louis—

Chicago	0	0	0	1	0	0	1	0	0	—	2
St. Louis	0	0	0	0	0	0	0	0	1	—	1

At Louisville—

Louisville	0	2	6	0	0	0	1	0	1	—	10
Pittsburg	0	0	1	1	0	0	0	1	0	—	3

At Cincinnati—

Cincinnati	0	0	1	1	0	1	0	0	0	—	3
Cleveland	0	0	0	2	0	0	0	0	0	—	2

Wet grounds prevented the opening game at Philadelphia with Brooklyn, and at Washington with Baltimore. The New Yorks and Bostons played two innings at New York, when rain stopped the game. The score was 2 to 1 in favor of the home team.

Games for to-day: Chicago at St. Louis, Pittsburg at Louisville, Cleveland at Cincinnati, Boston at New York, Brooklyn at Philadelphia, Washington at Baltimore.

Interferes with Politics.

Indianapolis, Ind., April 16.—The republican and democratic state committees had hoped to meet this week to fix the dates for the state nominating conventions, but on account of the war situation the chairmen say that action is postponed until late in the summer.

Coal Is Contraband of War.

Washington, April 16.—Great Britain has decreed that in case of hostilities coal at Jamaica shall be contraband of war. Cruisers of belligerents will be given but a supply sufficient to permit them to proceed to the nearest port.

THINK THIS OVER.

A Rational Remedy for a National Trouble.

To say that hemorrhoids or the disease commonly known as piles, is a national disease, may be slightly overdrawn, but it is quite certain that at least one in every four persons is so afflicted.

Because it is common and not immediately fatal many suffer for years without giving the trouble medical attention.

Moreover, the rather general impression that a surgical operation is the only cure, has much to do with delaying attention until the disease becomes deep seated and chronic.

Sufferers from piles should know that the Pyramid Pile Cure is better than a surgical operation: it cures without pain, it causes no detention from business and the cost is trifling, all druggists selling it at 50 cents per package.

The astringent effect of the acids in the Pyramid Pile Cure speedily contracts and restores to their natural condition the blood vessels of the affected parts, and as it quickly dissolves in the rectum, the remedy soothes and heals the irritated surfaces and these two things are the only necessary requirements for a cure.

The principal danger from piles is the liability to chronic ulceration of the rectal tissue, and nervous exhaustion from loss of sleep and the attendant pain and irritation. All these symptoms the Pyramid quickly relieves and the fact that it is the most popular and widely sold of any pile cure is quite conclusive evidence of thorough merit. If you suffer from bleeding, itching or protruding piles try a fifty cent package tonight. Ask your druggist for Pyramid Pile Cure.

DELAY ASSISTS SPAIN.

Sagasta Government Is Assembling a Formidable Armada.

New York, April 16.—The Journal's Madrid correspondent cables as follows, via Biarritz:

"Every hour the United States delays supreme action means disaster for our flag. The whole naval plan of Spanish attack has been changed. It is now evident that Spain will combine the torpedo flotilla at Cape de Verde, with the torpedo flotilla at Cadiz; this force will be united with the battleships Pelayo, Carlos V., Numancia, Vizcaya, Oquendo and other powerful ships, which are being rapidly made ready for fighting. The big fleet will be increased by every available cruiser.

"Spain realizes that she must be defeated in the end, but her policy now is to send out one armada and strike one glorious, terrible blow that will make Spanish hearts leap with pride, and then yield to the inevitable. It is now almost certain that the Spanish navy intends to stake all on one fleet, and that it will be the strongest force of which the nation is capable."

Militia May Be Called.

Washington, April 16.—The question of how many of the militia from each of the states shall be called into active duty when military operations are decided upon is engaging the attention of the president and the officials of the war department. The opinion was expressed by one of the latter that the president will soon call for 50,000 of the militiamen. Opinions differ as to the exact time when the call for the militia will be issue.

Command for Lee.

New York, April 16.—The president has decided to give Consul-General Lee the command of the Virginia volunteers in the event that hostilities break out between this country and Spain. This decision on the part of the president was reached after a conference with Secretary Alger and a number of other military men.

Warning to Spanish Press.

Madrid, April 16.—The government has warned the newspapers that the publication of the news of the movements of warships or of military preparations is punishable under the military code. Appeals to patriotism will not, however, incur the application of the code. The press comments favorably on the above notice.

Pope Has Plans for Cuba.

London, April 16.—A dispatch to the Central News from Madrid says that Cardinal Rampolla has advised Prime Minister Sagasta to abandon Cuba on condition of the establishment there of a Roman Catholic republic. The dispatch adds that, so far as can be ascertained, none of the insurgent bands have accepted the armistice.

The two-year-old son of W. L. Furgason, of Bolton, Miss., had whooping cough. "After several physicians had prescribed for him without giving relief," writes Mr. Furgason, "I persuaded my wife to try a 25 cent bottle of Chamberlain's Cough Remedy. The first dose had the desired effect, and in forty eight hours he was entirely free om all cough. I consider your remedy the best in the market, especially for children and recommend it at all times." The 25 and 50 cent sizes for sale by People's Drug Co., corner Main and Milwaukee street.

If there is a weak point about these suits you're welcome to discover it, but we believe you'll agree with us that they are marvels of excellence at the prices charged for them.
